

Installing intouch by MobileDigital on Salesforce AppExchange

1. Login to your Salesforce Marketing Cloud and Click on AppExchange

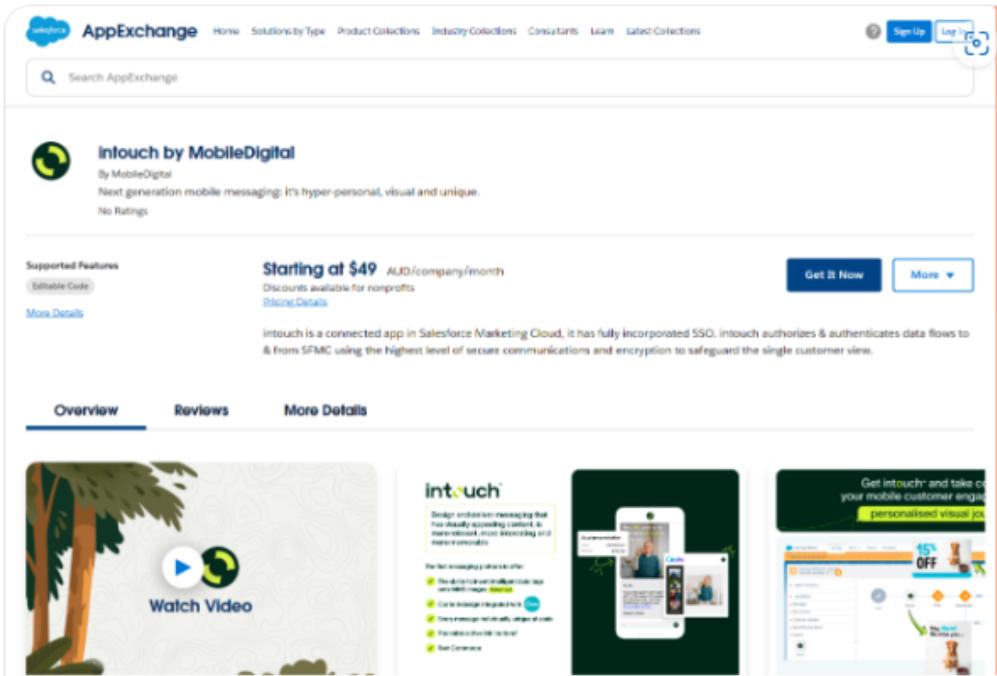

2. Will open the App Exchange - search for mms or intouch. The intouch app will appear in the list

A screenshot of the Salesforce AppExchange search results for "mms". The search bar at the top contains "mms". Below it, the heading "Results for 'mms'" is followed by two buttons: "App & Solutions (20)" and "Consultants (2)". On the left, there are two filter sections: "Pricing" and "Rating". The "Pricing" section includes checkboxes for Free, Paid, Discounts for Nonprofits, Freemium, and Paid Add-On Required. The "Rating" section includes radio buttons for 5-star, 4.5-star, 4-star, 3.5-star, 3-star, 2.5-star, 2-star, 1.5-star, and Unrated. On the right, the "Intouch by MobileDigital" app card is displayed. It features a green phone icon, the app name "Intouch by MobileDigital" by "MobileDigital", a 5-star rating, and a brief description: "Intouch is a connected app in Salesforce Marketing Cloud. It has fully incorporated SSO. Intouch authorizes & authenticates data flows to & from SFMC using the highest level of secure communications and encryption...". A "Marketing" tag is also present.

3. Click on the app tile and it will open our listing here:
